

Right here. For you.

Integrated Medical &
Pharmacy Diabetes Programs

**Save money and protect
employees with diabetes**

Our model is built to bring all your benefits together, providing an integrated and holistic approach to health care by leveraging medical and pharmacy data. When medical and pharmacy teams are working collaboratively, it's proven that the best care, while driving towards the lowest cost can be delivered.

* Health Plan Commercial Rx Book of Business (BoB) Data, these are averages based on BoB data and are not guarantees.

** Outcomes data above is based on full year 2022 claims experience for members engaged in Care Management / Disease Management with a primary diagnosis of diabetes, using a pre/post methodology.

With our integrated medical and pharmacy¹ coverage we offer the following diabetes support to you and your team:

ACQA

An Accountable Cost & Quality Agreement (ACQA), is our approach to value-based payment agreements, where we collaborate with our ACQA physicians by providing them data and tools they need to better care for patients.

Sempre Health³

An SMS text-based program that addresses prescription affordability and increases adherence for eligible members. The program provides a member copay incentive for filling their medication on time, each month.

Utilization Management

Formulary strategies driving to high clinical value and lowest net cost medications. These management programs include Prior Authorization, Step Therapy and Quantity Limits.

Patient Assurance ProgramSM

Members will pay no more than \$25 per 30 days for eligible drugs. Up to \$50 is provided by manufacturer assistance and in some instances a discount by the health plan.

Pharmacy Concierge²

A retrospective utilization management support program that identifies and provides voluntary insights to providers.

Wellframe[®] App

A mobile app that puts answers, tools, educational materials and more at your employees' fingertips.

Diabetes Remote Monitoring

Employees with diabetes can opt-in to have pharmacists actively monitor their blood sugar to help manage their condition.

Univera Healthcare Diabetes Care Management Team

Our on-staff team coordinates with one another – and our provider network – to deliver support and guidance to employees.

Over the last few years, market and social events have led to increased costs and use of GLP-1 medications such as Ozempic[®], or Mounjaro[®]. Univera Healthcare has kept pace with these events and is ensuring appropriate use with our Utilization Management programs.

Currently we are saving businesses an average of \$2.66 PMPM* through GLP-1 Utilization Management.

¹ Program eligibility, election process and shared savings fee may vary by funding arrangement.

² A buy-up for self-funded, minimum premium, and article 47 groups.

³ Self-funded, minimum premium, article 47 groups must enroll in Pharmacy Concierge to be eligible.

Have questions around savings your team could see with these integrated diabetes programs? Contact your broker or Univera Healthcare account manager.
