

Univera Access Copay Plan

Predictable and straightforward, this plan features premiums that cover nearly all your health care costs, even major claims, with very few out-of-pocket costs throughout the year. So you'll never be surprised by a big bill, and you'll rarely have to think about your coverage.

What's covered in full?

Here are some commonly used Preventive Care services* that are covered in full:

- Well-Baby and Well-Child Care
- Adult Annual Physical Examinations
- Adult Immunizations
- Well-Woman Examinations
- Mammograms
- Family Planning and Reproductive Health Services
- Bone Mineral Density Measurements or Testing

Deductibles and your plan

Your plan does not include a deductible.

Your copay plan provides you predictable out-of-pocket costs for most of your covered health care services. Preventive Care services* are covered in full on the first day your coverage begins. There is no deductible, so you only need to pay a copay for most medical services.

Prescription drugs and your plan

You can get a prescription filled at the copay or coinsurance level on the first day your coverage begins.

Important terms

Copays

A fixed amount you pay each time you use a medical service, like a doctor's visit or prescription refill. For example: If your plan's coverage includes a \$20 copay for a Primary Care Provider (PCP), you pay \$20 for each visit to your PCP and the insurance company pays for the rest.

Coinsurance

Coinsurance is similar to a copay, but instead of a fixed-dollar amount, you pay a percentage of the negotiated, allowed amount. For example: You need crutches and your bill is \$100. If your coinsurance is 15%, that means you pay \$15 and the insurance company pays the remaining \$85.

Out-of-pocket maximum

An annual limit on the amount of money that you would pay for health care services, not including your monthly premiums.
