

Understanding Your Virtual Care Options

You have options when choosing where to go for virtual care. Here is a quick break down to help you make the right choice.

	TELEHEALTH	TELEMEDICINE
The Differences at a Glance	<p>Telehealth is just like any other scheduled appointment with your primary care doctor. The only difference is, instead of going into your doctor's office, you both conduct the visit through phone or video connection.</p> <p>Check with your primary care doctor to see if they offer this option.</p>	<p>If your doctor isn't available for minor medical needs, telemedicine, provided through MDLIVE®, may be an option for you.</p> <p>Telemedicine gives you fast and convenient access to a doctor 24/7/365 wherever you are through your phone, tablet, or computer.</p>
When to Use Each of These Services	<p>Your doctor should be your first choice for routine medical care or minor illnesses or injuries that are not an emergency.</p>	<ul style="list-style-type: none"> • Whenever your primary care doctor is not available • If you live in a rural area and don't have access to nearby care • When you're traveling for work or on vacation • Instead of going to urgent care or the emergency room for minor and non-life-threatening conditions
Services Provided	<p>Your doctor's office can help you understand what telehealth options they offer, but common services provided are:</p> <ul style="list-style-type: none"> • Non-emergency medical conditions (cold & flu, pink eye, sinus infections, rashes, insect bites, allergies, etc.) • Behavioral health conditions (depression, substance use, anxiety, bipolar disorder, etc.) • Remote patient monitoring for chronic conditions (diabetes, hypertension, etc.) • Follow-ups or checkups (medication changes or refills) • Skin conditions (acne, dermatitis, eczema, psoriasis) • Non-life-threatening heart conditions (AFib, etc.) • And many more specialty conditions... 	<p>Medical Telemedicine for:</p> <ul style="list-style-type: none"> • Allergies • Asthma • Cold & Flu • Constipation • Diarrhea • Fever • Joint Aches • Nausea • Pink Eye • Rashes • And more <p>MDLIVE also provides behavioral health services for:</p> <ul style="list-style-type: none"> • Addictions • Anxiety • Bipolar disorders • Depression • Eating disorders • Grief and loss • LGBTQ support • Panic disorders • Stress • And more
How to Register	<p>If you don't know if your doctor(s) offers telehealth services, simply call and ask for more details.</p>	<p>Don't wait until you need it. There are four easy ways to activate telemedicine today:</p> <p>WEB: Register/Log in at UniveraHealthcare.com/Member</p> <p>APP: Download the MDLIVE app</p> <p>TEXT: Text UNIVERA to 635483 (Message and data rates may apply)</p> <p>VOICE: Call 1-866-692-5045</p>
