

Right here to move musculoskeletal (MSK) management forward.

Musculoskeletal disorders (MSDs) are one of the leading drivers of health care expenses in the U.S. and second highest cost for the health plan. Currently, in-person physical therapy (PT) compliance is a known issue, and the lack of follow-through creates greater downstream costs and complexity. A review of 2021-2022 health plan data illustrates that, of members facing back pain, 18% only completed one PT visit.*

This year, Univera Healthcare is offering virtual musculoskeletal (back, neck and joint) health care and physical therapy services to our members. These services are administered by Vori Health, an independent company.

Virtual PT can help:

- **Reduce** unnecessary invasive treatments and trips to the emergency room, resulting in lower overall costs
- **Reduce** absenteeism, resulting in higher work productivity
- **Increase** physical therapy engagement, resulting in better quality of care
- **Increase** ease and speed of access to care, resulting in better compliance of treatment

In 2021, \$800M

was spent by the health plan for MSK-related costs*

(Not inclusive of direct and indirect costs related to workers' compensation)

MSDs involved a median of

8 days away from work**

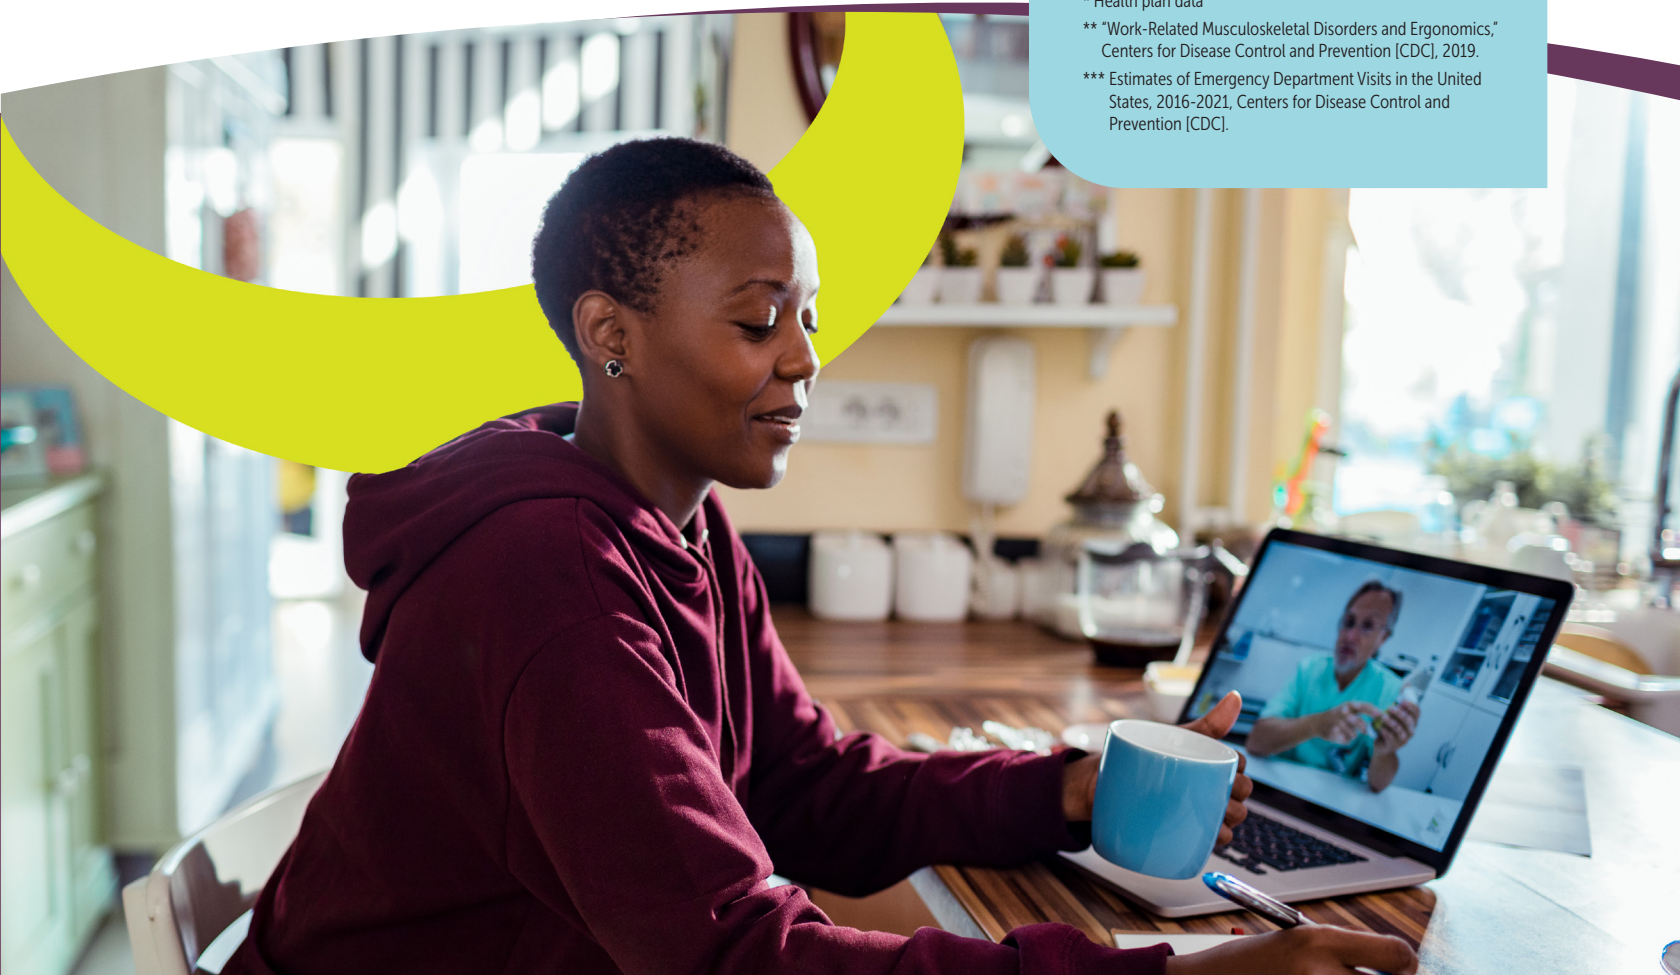

In 2021, an estimated 9.5M

visits were made to the emergency room for MSK conditions***

* Health plan data

** "Work-Related Musculoskeletal Disorders and Ergonomics," Centers for Disease Control and Prevention [CDC], 2019.

*** Estimates of Emergency Department Visits in the United States, 2016-2021, Centers for Disease Control and Prevention [CDC].

Vori Health is a nationwide specialty medical practice delivering a virtual-first MSK solution to help your employees get back to their lives faster.

With Vori Health, employees will get access to:

Convenient video visits

Medical evaluation and diagnosis

Personalized treatment including physical therapy and more

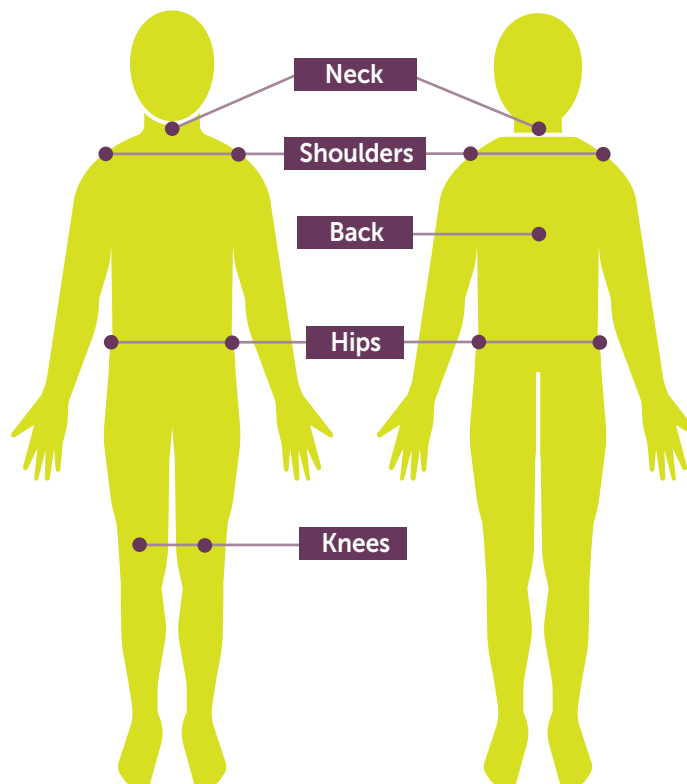

Non-opioid pain medication and imaging if needed

Support to help manage pain, regain strength, and enjoy life

Here are some of the common areas treated by Vori Health Orthopedic Specialists:
